USACES Bay Model Visitor Center, Sausalito

2100 Bridgeway, Sausalito, CA 94965

[Bay-Model-Visitor-Center](#)

## Discuss Resources to Implement Your Resilience Projects

Join us for this unique opportunity to have conversations with experts from state and federal agencies with the resources to support recovery and resilience projects throughout California. Sign-up to make a 10-minute presentation to introduce your organization's project proposal or idea and receive immediate feedback. For organizations without a defined project, information tables will offer free resources and tools to support locally-led resilience planning and implementation. Please register for this in-person event here: <https://4683ca.econrsf.info/listing/ccir-projectpreviews/>

These events are part of series provided to increase awareness about essential programs that can help counties, cities and communities recover from this year's storms and build resilience in preparation for future climate-related impacts.

## Brought to you by:

State and Federal Partners for Coastal Resilience in California
